Keynote Speaker

Steve Cantrill, MD, FACEP

Denver Health Medical Center

The day will include tools and strategies for optimizing:

- **Medical surge management**
- **Creation and operation of alternate care sites (ACS)**
 - **How to choose and configure an optimal site**
 - **Selecting operational and clinical care staff**
 - **Deploying volunteers at an ACS**
- **Implementation of Crisis Standards of Care**
- **EMS integration into the health system response**
